EDUCATION

CAVITE STATE UNIVERSITY – TRECE MARTIRES CITY CAMPUS

BS Information Technology

Trece Martires City
2026

General Weighted Average (GWA): 1.81 (Best Paper in Developmental Category); Dean's Lister, 2025

Relevant Coursework: Data Structures & Algorithms, Database Systems, Networking, System Maintenance, Web Development

WORK EXPERIENCE

EASYBUS PH INC.

Android Developer Associate

Quezon City, Philippines
September 2026 - Present

- Developed and maintained a city management system that streamlined document requests and reporting workflows.
- Implemented application features and resolved software bugs based on client requirements and business needs.
- Developed Android mobile applications using Java and XML, implementing user interfaces and application functionality.
- Collaborated with developers using Git and bitbucket to manage source code and streamline development workflows.

FREELANCER

Full Stack Web Developer

Trece Martires, Cavite
Aug 2026 – Present

- Developed web-based applications and software solutions tailored to clients' business needs and requirements.
- Designed, developed, and integrated REST APIs to facilitate communication between frontend and backend systems.
- Managed and configured hosting environments to ensure application availability, reliability, and performance.
- Designed and documented the system architecture, technical workflows, and implementation processes to support maintainability, consistency, and future development.
- Communicated and negotiated with clients regarding project requirements, scope, deliverables, timelines, and technical solutions.

PROJECTS

RESCUENECT: DISASTER RISK MANAGEMENT SYSTEM (Web & Mobile app)

2025

- Developed a React Native mobile application and integrated Mapbox Maps API for routing and location map visualization.
- Developed an administrative web dashboard for managing disaster-related data and API integrations.
- Awarded Best Capstone Project in Developmental Category (batch 2026)

LIKHADOCS: AI BASED NARRATIVE REPORT BUILDER

2026

- Integrated AI-assisted writing features to help users generate and refine professional narrative report content.
- Architected and integrated PayMongo payment gateways to automate subscription plan billing.
- Deployed and used by CvSU students for preparing OJT narrative reports for real world internship usage.

DEVVENTORY: LOCAL-FIRST DEVELOPMENT WORKSPACE (Desktop app)

2026

- Built a local-first desktop development workspace using React, TypeScript, Tauri v2, and Rust for managing projects.
- Implemented filesystem integration to manage development resources directly from the local machine.
- Implemented environment tracker and integrated vault management to track keys in different environments.
